Trading Leveraged Products is Risky.

What Is Forex Trading?

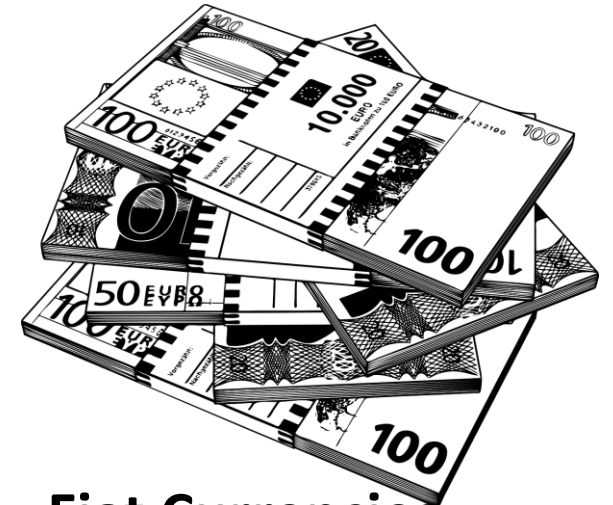

Types of Currencies

Commodities
(Gold, oil
etc.)

Indices.
They represent a
group of stocks.
(US100, S&P500 etc.)

Fiat Currencies
(Money that gets its
value from the
authority of the
government).

How do we make money?

- ❖ We make money by buying CFD's low (Cheap), and selling them high (Expensive).
- ❖ A CFD is a financial derivative that allows you to speculate on the price movement of an asset, without owning the underlying asset.

Selecting A Forex Broker.

- ❖ Regulated by a reputable organization. (CySEC, NFA and FCA)
- ❖ Consider brokers with low transactional fees. (Spreads)
- ❖ A good broker should provide excellent customer service .
- ❖ Provision of real-time data.

The Good.

- ❖ Around-the-clock trading.
- ❖ High profit potential.
- ❖ Lower trading costs.
- ❖ One can trade from anywhere.

The Risk

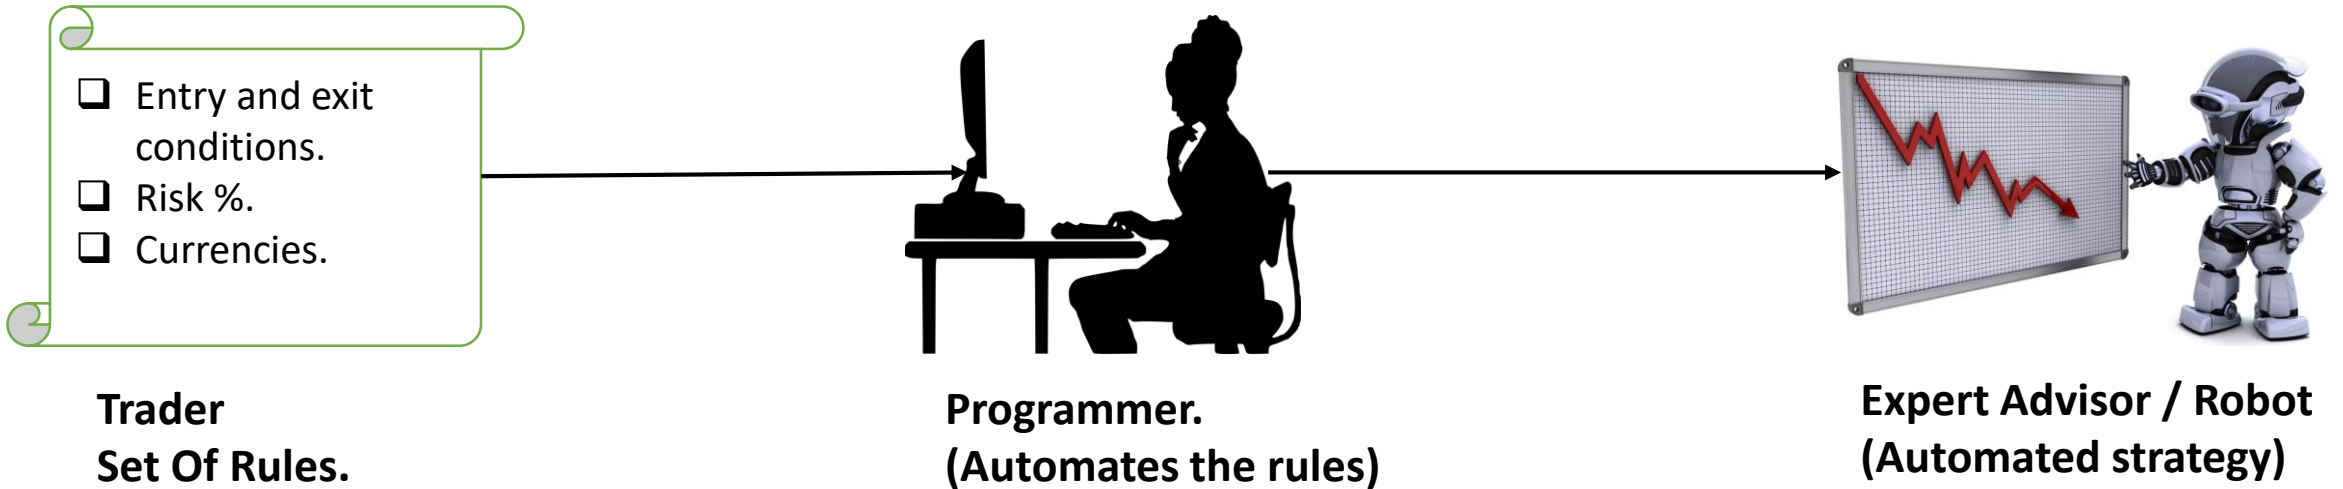

- ❖ Higher risk compared to traditional investments.
- ❖ Knowledge-intensive.
- ❖ Reduced regulatory oversight.
- ❖ Potential for significant losses.

Available Options For Investors

Expert Advisors (Robots)

- ❖ **A forex trading strategy** is a plan or set of rules that a trader follows to decide when to buy or sell a currency pair in the foreign exchange market.
- ❖ An Expert Advisor is an automated (Coded) strategy.

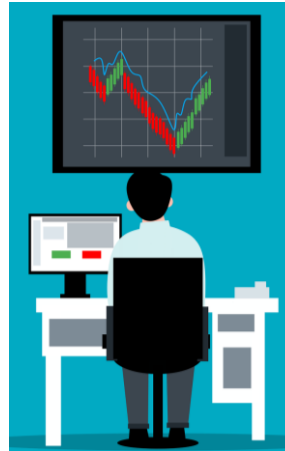

Copy Trading

Copy trading in forex trading is a method where you can automatically copy the trades of experienced and successful traders.
